

HF

-
- The graph illustrates the relationship between pressure (bar) and flow rate (l/min) for three different filter configurations: min, med, and Max. The pressure decreases as the flow rate increases for all configurations. The 'Max' configuration (red line) shows the highest pressure drop, while the 'min' configuration (black line) shows the lowest pressure drop.
- | Flow Rate (l/min) | min (bar) | med (bar) | Max (bar) |
|-------------------|-----------|-----------|-----------|
| 0 | 2.0 | 2.3 | 2.6 |
| 100 | 1.8 | 2.1 | 2.3 |
| 200 | 1.4 | 1.7 | 1.9 |
| 300 | 1.0 | 1.4 | 1.6 |
| 400 | 0.6 | 1.0 | 1.3 |
| 500 | 0.2 | 0.6 | 1.0 |
| 600 | - | 0.2 | 0.6 |
| 700 | - | - | 0.3 |
| 800 | - | - | 0.0 |
